Good morning Tom

Great to hear from you, and I would be delighted to meet James as well - I sincerely appreciate your consideration. I've checked my calendar for that week, and at this stage, I'm relatively clear except for Monday morning, and early Thursday morning. Let me know whatever works for you and I'll lock it in if you know what you are doing. Otherwise, I'll tentatively keep time free on which ever day may likely work best.

Thanks again Tom - speak soon.

Hi James

Thanks for the conversation this morning – sincerely appreciate you thinking of us. I've just been speaking with s47F our Operations Manager, and he's very interested and keen to draft something for you. He's asked a couple of questions however, in order to provide you with a scenario on our ability to facilitate operations for you. Are you able to identify whether retaining walls are being built? It is deep sewer on site, what services are being provided to the lots?

I appreciate you won't be in tune with these questions, and perhaps it's a little too detailed for what you may need for your discussions this week, but we are eager to provide you with a reasonable outline. I've had a message from s47F this morning, so I'd be happy to touch base with him if you are comfortable for me to do so. Thanks again James.

Good afternoon James

I hope all is well for you and the team, and the week has been productive for you. I'm looking to head to Darwin in mid October, and wondering whether I could possibly ask for the contact details of your man on the ground in the NT? I thought I might try and make an introduction and meet while in town if neither of you have any issues with this. Is it at all possible to extend the request for your PM in Melbourne as well?

Either way, I'll look forward to speaking with you soon. Have a great weekend.

Good afternoon Gents

I just wanted to drop you a quick note to thank you both sincerely for stopping by yesterday, to spend a moment of your time with us. As suggested, we are looking forward to getting to know you both a little more in the future, and perhaps the opportunity will present itself to work together pending a level of comfort for both of us.

As mentioned yesterday, s47F has been introduced to Peter Howman some months ago, for discussions on ways the Development Team may be able to offer support in your opportunities here in WA. I have included s47F in this note, and as suggested yesterday, I would like to make an introduction between you and s47F when next in town if suitable for you.

Finally, we outlined the thought of having you join us for a basketball game if you're interested in a little downtime from your busy schedule if the timing works. Let me know if either or both of you would like to join me for either option as mentioned below. I'll look forward to speaking with you again soon, and catch up with you again in the future. Have a safe trip home.

G'day James

Just following up on the email from yesterday, I bumped into a consultant today who made mention to me that he would like to look at getting connected to someone at DHA. I was honest to say that I know you and others there, and would ask you if it's possible that he might be provided your details for a connection. Just to outline, the person I speak of is s47F. These guys are the leading survey consultancy in WA - very well known and respected in the industry, and known well with the likes of s47F and s47F both I believe you are dealing with in some form or another.
Let me know if this would be okay. Cheers.
