SITE INSPECTION

Lee Point Master-planned urban development, Darwin, NT (2015/7591)

Dear Peter

Thank you for your time assisting Approvals Compliance on our site inspection at Lee Point Master-planned urban development (EPBC 2015/7591) on 12 March 2026. As discussed, the site inspection was a proactive inspection to observe current development status, management and implementation of the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) approval conditions.

Thanks also to your team who provided the weed management information and mapping discussed relevant to the December weed management activities. There was no evidence of any non-compliance on site and as such, there is no further action for you at this time.

Please ensure that you continue to maintain accurate records associated with, or relevant to, the conditions of the approval. Such documents and records may be used in the future to verify compliance with the conditions of the approval.

Should you have any questions regarding this matter please contact me at [REDACTED] or via email at [REDACTED]

Yours sincerely

A handwritten signature in black ink, appearing to be 'K. [REDACTED]'. The signature is fluid and cursive.
